Women's View Medical Group is pleased to introduce a full line of skin care services, carefully reviewed to assure safety and effectiveness, offered in a setting committed to Health, Wellness and Anti-Aging Care. Introducing a breakthrough in laser technology: we proudly offer

**Cutera Coolglide Laser Hair Removal System.**

Now you can quickly and gently remove unwanted hair from underarms, face, bikini, legs and more. With a unique cooling design for greater comfort, the Coolglide system delivers pulses of laser light through a cooled handpiece. The handpiece is placed on the skin and gently glides along while it quickly and comfortably disables hair follicles, impairing their growth. It is an extremely easy, safe, effective method for permanent hair reduction. Laser hair removal eliminates the need for time-consuming or painful waxing, razors or electrolysis.

Experience the difference that the CoolGlide hair removal system has to offer you.

Ask about all our skin care services – including products and services for anti-aging and problem skin, as well as cosmetic repair of torn earlobes, mole and skin tag removal.

The **Cutera Laser Genesis Facial** helps restore natural elasticity and reduce aging and wrinkles by stimulating collagen production. Everything has been carefully selected for safety and effectiveness to provide you with **Anti-Aging Skin Care** in a professional medical environment at a price you can afford.
